

**CIRCULAR REF: 2017/018**

**CIRCULATED TO ALL MEMBERS, BROKERS AND DIRECTORS  
ATTENTION INSURANCE DEPT**

**7 SEPTEMBER 2017  
CJG/KAH**

## **MEMBER BENEFIT – CYBER SECURITY EVALUATION**

North P&I Club is committed to providing the highest levels of service to Members and to assist with managing crisis communications in the event of an incident, we have entered into an agreement with Hudson Analytix – Cyber to offer our Members a discounted rate for using their HACyberLogix platform over three years.

*HACyberLogix* is a secure, cloud-based program that is designed to provide maritime companies with the ability to assess their organisation's cybersecurity capabilities, identify cybersecurity vulnerabilities across the organisation, and provide specific guidance for supporting the implementation, continuous improvement, and long-term sustainability of a cybersecurity program supporting all shore-based and shipboard operating environments.

### **Benefits & Features**

North is encouraging Members to consider using Hudson Analytix's HACyberLogix Platform to develop an understanding and measurement of their policies, processes, procedures, and technologies that contribute to their cyber security:

- The platform will enable Members to evaluate themselves across 12 key areas related to cyber risks. These 12 areas encompass all functional areas of a shipping company.
- The platform's evaluation outputs support the creation of automatically generated, prioritised recommendations to Members on action areas.
- The system allows audit and tracking of cyber performance over time.

For more information, please see the attached flyer.
