INTRODUCTION

The ICC International Maritime Bureau (IMB) is a specialised division of the International Chamber of Commerce (ICC). The IMB is a non-profit making organisation, established in 1981 to act as a focal point in the fight against all types of maritime crime and malpractice. The International Maritime Organization (IMO) in its resolution A 504 (XII) (5) and (9) adopted on 20 November 1981, has *inter alia*, urged governments, interest groups and organizations to co-operate and exchange information with each other and the IMB, with a view of maintaining and developing a coordinated action in combating maritime fraud.

Outrage in the shipping industry at the alarming growth in piracy, prompted the creation of the IMB Piracy Reporting Centre (IMB PRC) in Kuala Lumpur, Malaysia in October 1992.

The key advantages and services of the PRC are:

- A 24/7 manned operations centre.
- A single point of reporting for all vessels affected by piracy or armed robbery, as they trade through many different jurisdictions.
- Notifying the appropriate response agency of the reported incident and liaising with these agencies until the crew and vessel are safe.
- Warning vessels in the vicinity of a threat by broadcasting sitreps of incidents via Inmarsat-C SafetyNET service.
- Alerting CSOs and vessel managers of incidents via email.
- Keeping the International Maritime Organisation (IMO) updated of reported incidents.
- Assisting local law enforcement in apprehending and bringing the criminals to justice.
- Publish comprehensive quarterly and annual reports detailing incidents reported to the PRC.

The IMB PRC provides all its services ***free of charge*** to all ships irrespective of crew nationality, ownership, or flag.

This report is an analysis of 97 global maritime piracy and armed robbery incidents reported to the IMB PRC from 1 January to 30 September 2021. Incidents are occasionally reported late, resulting in changes to the tables and figures in subsequent reports.

Due to the continued debate concerning the Malacca Straits, these narrated incidents are shown separately. Similarly, because of the vast area affected by Somali pirates, these incidents are grouped together with the Gulf of Aden and Red Sea in the narrations section.

DEFINITIONS OF PIRACY & ARMED ROBBERY

The IMB PRC follows the definitions of Piracy as defined in Article 101 of the 1982 United Nations Convention on the Law of the Sea (UNCLOS) and Armed Robbery as defined by the International Maritime Organisation (IMO) in its 26th Assembly session as Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships”.

Article 101 of UNCLOS defines Piracy as:

Definition of Piracy consists of any of the following acts:

(a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed-

(i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;

(ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;

(b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;

(c) any act of inciting or of intentionally facilitating an act described in subparagraph (a) or (b).

IMO Resolution A.1025 (26) “Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships” defines Armed Robbery as:

Armed robbery against ships means any of the following acts:

.1 any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State’s internal waters, archipelagic waters and territorial sea;

.2 any act of inciting or of intentionally facilitating an act described above

The definitions of piracy and armed robbery are aimed to assign responsibility for responding to these illegal acts. It is worth noting that these definitions do not consider the resulting consequence on the crew, vessel and cargo, which in IMB’s experience ranges from opportunistic theft, cargo theft, taking crew hostage, assault and injury, kidnapping and in some cases death of a crew member.

It is vital that all actual and attempted incidents at the time of, or shortly after, the incident are reported and recorded.

This is the first essential step in the response chain.

Under the definitions of Piracy or Armed Robbery, the IMB PRC reports incidents as follows:

1. **Boarded:** An illegal act of perpetrators successfully gaining access onto the vessel.
2. **Hijacked:** An illegal act of perpetrators successfully gaining access onto the vessel and taking over the control of the vessel from the Master and crew.
3. **Fired Upon:** An illegal act of perpetrators discharging weapons towards the vessel while attempting to gain access onto the vessel.
4. **Attempted:** An illegal act of perpetrators attempting to approach a vessel with possible intention to board but remain unsuccessful due to the timely actions of the crew.

The consequences to the crew, vessel, or cargo, as a result of the above illegal acts:

1. **Crew:** Kidnap, hostage, death, threat, assault, injury, missing.
2. **Vessel:** Damage, especially due to the discharge of weapons or when perpetrators willfully damage vessel equipment and property.
3. **Cargo:** Theft or damage to cargo.

Region specific severity of incident on Crew, Vessel and Cargo: (Chart G)

As several agencies define and categorize incidents differently, the IMB reports under three generic Severity Levels – I, II, and III determined by the effect the incident has on the crew, vessel and cargo.

Severity Level I: Any incident which has a direct impact on the crew. To include:

- a. Crew being taken hostage, assaulted, injured, killed, kidnapped, missing, threatened;
- b. A hijacking where the command of the vessel is taken over by those boarding;
- c. An incident where the crew retreats into the citadel.

Severity Level II: To include a vessel being fired upon, security teams firing on approaching threat, robbers / pirates identified with weapons of any type (violence is offered) whether boarded or otherwise.

Severity Level III: To include an incident that does not fall into either Level I or Level II

OFF SOMALIA / GULF OF ADEN / RED SEA ATTACK FIGURES UPDATE

From 1 January to 30 September 2021, one incident was reported to the IMB PRC for Gulf of Aden.

The international navies patrolling these waters continue to coordinate and liaise with merchant and fishing fleets to identify and apprehend pirate action groups.

All vessels are advised and encouraged to adhere to the BMP 5 recommendations while transiting these waters. Vessels employing Privately Contracted Armed Security Personnel (PCASP) should be cautious and not mistake fishermen for pirates in some heavy fishing areas.

As the IMB PRC continues to monitor the situation in the region, it cautions vessel owners and masters against complacency. Somali pirates still retain the capability and capacity to carry out attacks.

The IMB PRC supports and compliments the role of international navies by relaying all reports received to the response agencies, as well as by broadcasting alerts to vessels via the INMARSAT Safety Net Service.

CONTINUED COOPERATION

The positive information sharing, actions and cooperation between the Indonesian Marine Police (IMP) and the IMB PRC has resulted in an overall decrease in the number of reported incidents in the 10 safe designated areas.

All vessels intending to anchor, waiting for berth or drift should do so at the designated areas where IMP patrol boats would be stationed to enable them to maximize their resources to provide greater protection for vessels.

Vessels are advised to cooperate by maintaining strict anti-piracy and robbery watches and report all attacks and suspicious sightings to the local Authorities / IMP, as well as the IMB PRC. The IMB PRC will also liaise with local and regional Authorities to render necessary assistance.

In line with the Road Map Program Police Reforms Wave III, the Indonesian Authorities will continue to allocate and position resources and assets in 10 key designated areas of concern, to prevent sea robbery and piracy in and around Indonesian waters.

In January 2021, the IMB was informed that the above will continue until further notice. The successful cooperation shows a year to year drop in incidents in almost all areas. The IMB thanks the IMP for their support and contribution to the shipping industry.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong and vital cooperation from the Philippine and Malaysian Intel that have provided crucial information relating to safety of vessels and seafarers particularly in the Sulu Sea/eastern Sabah waters. The successful cooperation has directly and indirectly saved many lives and properties at sea. The IMB PRC looks forward to the continued cooperation, and thanks both intel agencies for their commitment.

ACKNOWLEDGEMENT

The IMB appreciates the assistance (past and present) and vital cooperation provided by the Coalition naval forces / EU naval force (EUNAVFOR ATALANTA) / MSCHOA / US Navy / French Alindien / NATO / UKMTO / Indian Navy / Iranian Navy / Malaysian Navy / Russian Navy / Chinese Navy / South Korean Navy / Japanese Maritime SDF/ Singapore Navy / Royal Thai Navy / and Yemeni Coast Guard and Navy, for assisting the many vessels that have been attacked by suspected Somali pirates, both in the Gulf of Aden, and off eastern / southern Somali coast, Indian Ocean, Arabian Sea and other areas. The positive actions by the navies including pre-emptive and disruptive counter piracy tactics, resulted in a drop in the number of attacks.

ACKNOWLEDGEMENT

The IMB PRC appreciates the strong cooperation from the West African authorities / navies and international navies, especially the Italian, Spanish, and Portuguese Navies in the Gulf of Guinea. A special thanks to the Nigerian Authorities, particularly the Nigerian Navy and NIMASA, who have continued to provide prompt information, actions and valuable cooperation between agencies. The IMB PRC looks forward to the continued cooperation from the West African authorities/navies and international navies in the area.

ACKNOWLEDGEMENT

The IMB PRC thanks all the masters and vessel owners/operators who have reported incidents to the Centre in a timely manner. It encourages all incidents to be reported in a timely manner. While the IMB PRC endeavours to always get a meaningful response from regional authorities, the reports also play a crucial role to increase awareness of this crime, which allows for additional resources to be allocated by authorities to tackle the crime of piracy and armed robbery. Transparent statistics from an independent, non-political, international organization such as the IMB PRC can act as a catalyst to achieve this goal.

The IMB PRC wishes all seafarers safe and secure voyages and remains available to assist in any manner.

PIRACY AND ARMED ROBBERY PRONE AREAS AND WARNINGS

All vessels are advised to report all piracy and armed robbery attacks and suspicious sightings to local Authorities, their flag state and to the IMB Piracy Reporting Centre as per IMO Cir 1334.

The IMB Piracy Reporting Centre can be contacted at:

Mariners are advised to be cautious, take precautionary measures and follow all recommended guidelines, when transiting the following areas:

SOUTH EAST ASIA AND INDIAN SUB CONTINENT

Bangladesh: Robbers normally target vessels at anchor. Most incidents reported are at Chittagong anchorages and approaches. Incidents in Bangladesh have fallen significantly over the past few years because of the efforts by the Bangladesh authorities.

Indonesia: Belawan and Muara Berau anchorage and surrounding waters. Pirates / robbers are normally armed with guns / knives and / or machetes. Generally, be vigilant in other areas. Many incidents may have gone unreported. Pirates / robbers normally attack vessels during the night. When spotted and alarm is sounded, the pirates / robbers usually escape without confronting the crew. Therefore, a strict anti-piracy watch is recommended.

Meetings and continued dialog between the Indonesian Marine Police (IMP) and the IMB PRC resulted in positive actions by the Indonesian Authorities, which have so far brought down the number of incidents significantly. With the assistance and actions of the IMP, the incidents appear to be decreasing each year with great success.

The Indonesian Marine Police have advised all vessels intending to anchor, to do so at / near the following areas where Indonesian Marine Police will conduct patrols for greater protection.

(After IMP-IMB started their cooperation, since 2014, no incident has been reported in the Adang Bay region. With this in view, in March 2021, IMP has decided to replace Adang Bay with Tanjung Butan at 01:11.30N – 104:12.30E as Singapore Straits and surrounding waters now classified as risky waters).

1. Belawan: 03:55.00N-098:45.30E
2. Dumai: 01:42.00N-101:28.00E
3. Nipah: 01:07.30N-103:37.00E

9. Muara Berau: 00:17.00S-117:36.00E
10. Balikpapan: 01:22.00S-116:53.00E

The Indonesian authorities have advised IMB that in accordance with the Road Map Program Police Reforms Wave III, the above given ten locations prevention action of sea robbery / piracy in Indonesian waters will continue until further notice.

Vessels are advised to maintain strict anti-piracy watch and measures and report all incidents and suspicious sightings to the local authorities and to the IMB Piracy Reporting Centre. The IMB PRC will also liaise with the local authorities to render necessary assistance.

Malacca Straits: Although the number of incidents has dropped substantially due to the increased and aggressive patrols by the littoral states' authorities since July 2005, vessels are advised to continue maintaining strict anti-piracy / robbery watches when transiting the Straits. Currently, there are no indications as to how long these patrols will continue or reduce. In some cases, incidents may have gone unreported. Situation currently remains stable.

Malaysia: Bandar Penawar, Johor - vessels attacked at anchorage. Off Tanjung Piai – vessels attacked while underway. Attacks have stopped and IMB PRC is monitoring and liaising with Malaysian Authorities/MMEA.

In / off Eastern Sabah – Militant activities resulting in several tugs / barges / fishing vessels being attacked and crews kidnapped. There were two kidnapping incidents in 2018 and two in 2019 and one in January 2020 off Tambisan, Sabah. The local Authorities have beefed up patrols. It was reported that several ASG militants have been captured/killed by the Authorities. The IMB PRC is monitoring the situation.

Vessels are advised to take precautionary measures and maintain strict anti-piracy watch and measures. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on potential incidents targets / description of militant boats issued by the Philippines and Malaysian Intel.

Philippines: Pirates/Militants in the southern Philippines conduct attacks on vessels in / off Sibutu passage / off Sibutu island / Tawi Tawi / Sulu sea / Celebes sea / off eastern Sabah. They attacked tugs/barges/ fishing vessels/yachts/merchant ships to rob and kidnap crews for ransom. These kidnappings by militants have stopped (for merchant ships) since March 2017. In 2018 there were two incidents where crews were kidnapped off Sabah and two in 2019 and one in 2020 where smaller tugs and fishing vessels were targeted. These kidnappers are believed to have been affiliated with the ASG. The local authorities have beefed up patrols. It was reported that several ASG militants have been captured / killed by the authorities. The IMB PRC is monitoring the situation. Vessels are advised to take precautionary measures and maintain strict anti-piracy watch and measures. Vessels transiting these waters should refer to the Sabah Notice to Mariners NTM 14 of 2017 on the Ship Reporting System. Vessels are also urged to monitor the IMB PRC Warnings on potential incidents locations / targets issued by the Philippines Intel/ Malaysian Intel.

Manila: Be vigilant. Several past and recent incidents / robberies have been reported.

Singapore Straits: A General Warning issued in December 2019 indicating sudden rise in attacks in Singapore Straits especially during the night is still valid to date as incidents are still occurring. It appears one or more groups are targeting passing vessels including tugs / barges to rob them. Authorities have been notified and are aware of the situation. Vessels are advised to remain vigilant and to continue maintaining adequate anti-piracy / robbery watches and measures. Pirates / robbers attack vessels while underway or while at anchor especially during the night. Pirates / robbers will abort the attempted attack once spotted and alarm sounded, and authorities notified. Therefore, a strict watch is necessary.

South China Sea: Although incidents have stopped in the vicinity off Tioman / off Pulau Aur / off Anambas / Natuna / Mangkai islands / Subi Besar / Merundung areas, vessels are advised to continue to remain vigilant, especially during the night. In the past, several hijackings of small product tankers occurred off the coast of Malaysia, Indonesia, Singapore and in the South China Sea area. This trend started in April 2014, but the hijackings stopped abruptly in late 2015. It has

been reported that some criminals have been arrested by local authorities both in Malaysia and in Indonesia. There were three incidents reported in 2017 where two tankers were hijacked off Kuantan / Off Pulau Aur / East coast Malaysia. The IMB is monitoring the situation.

WEST AFRICA (Gulf of Guinea) – As a general rule:

- (i) Follow recommendations and guidelines presented in the BMP WA.
- (ii) All crews to keep a vigilant lookout using all available means. Vessels to adjust ETA for direct berthing or wait / drift / transit more than 250nm from coast, if appropriate and agreed by all in venture.

Angola (Luanda): Incidents of robberies reported.

Benin (Cotonou): Incidents reported in / off Benin. Vessels attacked and crews kidnapped. Incidents showed that the pirates / robbers in the area are well armed and violent. Currently pirates robbed vessels and kidnapped crews for ransom. In the past, tankers were hijacked, and part cargo stolen (gas oil).

Cameroon (Douala): Incidents dropped. Past incidents involved kidnapping of crews.

Equatorial Guinea: Incidents dropped. Past incidents occurred around 40nm from Luba. One incident involved hijacking and the other boarded with criminal intentions.

Gabon (Port Gentil): Incidents / kidnapping of crews occurred more than 70nm offshore.

Ghana (Takoradi/Tema): Robberies have been reported at the anchorages.

Guinea (Conakry): Robberies have been reported at the anchorages.

Ivory Coast (Abidjan): Incidents dropped but remains risky.

Nigeria (Lagos / Apapa, Off Bayelsa / Brass / Bonny Island / Port Harcourt): Pirates / robbers are often well armed, violent and have attacked and hijacked / robbed vessels / kidnapped crews along / far from the coast, rivers, anchorages, ports, and surrounding waters. Incidents have also been reported up to about 212nm from the coast. Generally, all waters in / off Nigeria remain highly risky. Vessels are advised to be vigilant, as many incidents may also have gone unreported. Kidnapping for ransom remains the biggest risk for crews. Vessels are advised to take additional measures in these high-risk waters. In the past, tankers were also hijacked, and part cargo stolen (gas oil).

Togo (Lome): Incidents dropped. Past attacks reported at anchorage in / off Togo. Vessels robbed and crews kidnapped. In the past, tankers were also hijacked, and part cargo stolen (gas oil).

The Congo: Pointe Noire / Off Point – stay vigilant.

Sao Tome & Principe: Vessels hijacked / attacked, and crews kidnapped. Vessels advised to maintain strict anti-piracy watch and measures.

Red Sea / Gulf of Aden / Somalia / Arabian Sea / Indian Ocean: No recent reported piracy attacks. There were several suspicious reports. Although the opportunity for incidents has reduced, the Somali pirates continue to possess the capability and capacity to carry out incidents. All merchant ships are advised to adhere to the recommendations of the latest BMP, while transiting in these waters. The IMB PRC will continue to alert and broadcast information to all ships in the region via Inmarsat EGC Safety Net.

Although no reported incidents, the threat still exists in the waters off the southern Red Sea / Bab el Mandeb, Gulf of Aden including Yemen and the northern Somali coast, Arabian sea / off Oman, Gulf of Oman and off the eastern and southern Somali coast. In the past, vessels have been attacked off Kenya, Tanzania, Seychelles, Madagascar, Mozambique, as well as in the Indian ocean, and off the west and south coasts of India, and west Maldives. Be vigilant.

Generally, Somali pirates tend to be well armed with automatic weapons, RPGs and sometimes use skiffs launched from mother vessels, which may be hijacked fishing vessels or dhows. Masters and ship owners are encouraged to register and report their vessels as per the latest BMP procedures and ensure that their vessel is hardened prior to entering the high-risk area. While transiting through these waters it is essential to maintain a 24-hour visual and radar watch. Keeping in mind the warnings and alerts for the area, an early sighting / detection of an approaching skiff will enable an accurate assessment, allowing the Master and PCASP to make informed decisions to keep clear of small boats, dhows, fishing vessels and if necessary, take evasive actions and request assistance as needed.

Masters are reminded that fishermen in this region may try to protect their nets by attempting to aggressively approach merchant vessels. Some of the fishermen may be armed to protect their catch and they should not be confused with pirates.

Vessels transiting in / off Yemen / Gulf of Aden: Security risk due to civil war in Yemen. Vessels have been fired upon and approached. (not piracy related).

Vessels transiting Straits of Hormuz / Gulf of Oman / Off Iran – Four incidents reported in 2021 involving explosions and unauthorised boarding. (not piracy related).

Trends within areas of continued concern

CHART K: SE Asia – Singapore Straits

CHART L: West Africa – Gulf of Guinea

CHART M: Americas – Peru

TRENDS

Ninety-seven incidents of piracy and armed robbery against ships were reported to the IMB Piracy Reporting Centre (PRC) in the first nine months of 2021, the lowest figure since 1994 and down from 132 incidents in the same period in 2020.

The figures are broken down as 85 vessels boarded, nine attempted attacks, two vessels fired upon and one vessel hijacked. During this period 51 crew were kidnapped, eight taken hostage, five threatened, three injured, two assaulted and one killed.

Twenty-eight incidents were reported within the Gulf of Guinea (GoG) region in the first nine months of 2021 compared to 46 for the same period in 2020.

Five GoG incidents were reported in Q3 2021 – including the kidnapping of one crew member, compared to seven reported incidents in Q3 2020 with 31 crew taken in five separate incidents. It is noticeable that all Q3 2021 incidents occurred against vessels at port anchorages compared with the average distance of the successful kidnappings in Q3 2020 being 100NM from land with the furthest almost 200NM.

While the reduction in successful crew kidnappings is welcome, it must be emphasised that in 2021 the Region accounts for the two vessels fired upon, the hijacking as well as all 51 kidnapped crew globally, two crew taken hostage, two injured crew and one crew fatality.

The IMB PRC therefore cautions masters plying in this region and recommends full adherence of the BMP WA guidelines. The risk to innocent crews remains high. On 5 September 2021, an offshore supply vessel was boarded by armed perpetrators while anchored in the inner anchorage of Owendo, Gabon. Shots were fired and two crew were seriously injured and needed hospitalisation, a third crew was reported missing presumed kidnapped.

Recent initiatives to enhance maritime security and response coordination in the region must be encouraged and sustained.

In S E Asia, 20 incidents were reported from vessels transiting the Singapore Straits – the highest number recorded since 1991. Although classified as low-level opportunistic thefts, the perpetrators continue to pose a direct risk to seafarers and vessels underway. In 20% of the incidents reported in the Singapore Straits; two crew were threatened, and one each assaulted and injured.

A noticeable reduction in the number of reported incidents in Indonesian waters has been observed with six low level incidents reported on vessels in ports and anchorages, compared to 23 incidents in 2020. This is the lowest reported Q3 number for Indonesia since 1993 and the Indonesian Marine Police is commended on the proactive response measures taken based on IMB PRC reporting.

Eight incidents have been reported from mainly container vessels boarded while anchored in Manila Bay, Philippines during this reporting period.

Elsewhere Callao anchorage in Peru continues to be an area of concern with 15 incidents reported in 2021, the highest number of reported incidents since 1991. Whilst also viewed as low level opportunistic thefts, knives were reported in 60% of the incidents. Three crew were taken hostage and one each assaulted and threatened in over 30% of the reported incidents. All vessel types are targeted.

Since 1991 the IMB PRC's 24-hour manned center, remains a single point of contact to report the crimes of piracy and armed robbery. The Centre has not only assisted vessels in a timely

manner it provides the maritime industry, response agencies and governments with transparent data – received directly from the master of the vessel under attack - or its owners.

The IMB PRC's prompt forwarding of reports and liaison with response agencies, its broadcasts to shipping via GMDSS Safety Net Services and email alerts to CSOs, all provided free of cost, has helped the response against piracy and armed robbery and the security of seafarers globally.
