

Safe Work

Plan Maintenance

Safe work is North of England's loss prevention initiative to promote good practice and safe systems of work on board ship.

Safe work means that procedures should be established to ensure that the ship is properly maintained.

Safe work means that specific measures should be established to ensure the reliability of equipment and technical systems whose failure could result in hazardous situations.

Safe work means that seafarers should be competent and properly trained for the tasks to be performed.

Safe work means that seafarers should follow the ship's safety management system.

Safe work practices will reduce the number of incidents and accidents.
